

Electric Curtain Track System
Silent Gliss 5100 Autogliss

Ideal for Extra Security, Ease of Operation or Just a Simple Touch of Luxury

Wherever you are, whatever you are doing, you can rely on our cost-efficient electric curtain track system Silent Gliss 5100 Autoglide. The made-to-measure solution to operate your curtains automatically.

Motorised curtain tracks allow you to control your curtains at the touch of a button, combining a touch of luxury with an excellent deterrent to intruders. With Silent Gliss 5100 let your curtains look after themselves – and your home.

Wave

As well as classic curtain heading systems such as pinch pleat, Silent Gliss 5100 is also compatible with our exciting contemporary Wave curtain heading system which allows the curtain to hang in a continuous wave. Smooth, simple and elegant.

Touch & Go

Intuitive and easy operation – by pulling the fabric the curtain moves automatically to the end position. On top of that, the integrated manual override allows you to operate the curtain should the power fail.

Technical Options

Autoglide is available in four system options, all with a maximum track width of 5m carrying curtains up to 25kg. Easy plug and play installation, smooth operation and suitable for bay and curved windows.

Autoglide 5100B – Wall Switch

This base system offers operation via a fixed, single channel wall switch. Simple operation at the touch of a button.

Autoglide 5100R – Remote Control

In addition to the fixed wall switch, the 5100R is supplied with a remote control handset.

Autoglide 5100T – Timer Unit

This option is supplied with the fixed wall switch and a timer unit which allows pre-programmed opening and closing times.

Autoglide 5100TC – Total Control

The total control option includes a wall switch in combination with the remote control and the timer – giving you ultimate choice of control methods over your system.

Silent Gliss is the leading global supplier of motorised and manual curtain and blind systems in the high quality market. We offer our customers the very best in terms of quality, design, technology, service and individuality. Our core competence is innovation – inspired and driven by customer needs.
